FONT SIDE TABLE

FONT SIDE TABLE

The new occasional table, designed by the Swedes Claesson Koivisto Rune and inspired by a typographic character, becomes a service table when positioned next to a sofa or a bedside table when next to a bed. Font is available in two finishes that define its style: textured and sculptural in a light or dark cement version or pure and minimalist in white Cristalplant, a resistant, eco-sustainable and recyclable solid surface, to which a device with a USB output can be applied that is handy for charging electronic devices. Designer: Claesson Koivisto Rune.
